CAMPING

BIVOUAC

VIVI is the perfect compact, mobile power generator that combines a wind turbine and a photovoltaic panel with a 12V power bank. Ideal for off-grid applications: traveling, in agriculture, on allotments, in emergencies, and anywhere else you need energy.

MOST IMPORTANT ADVANTAGES

The hybrid system generates energy year-round, day and night

CORPORATE AND PUBLIC APPLICATIONS:

- Construction sites (monitoring, lighting)
- Temporary stands, food trucks
- Advertising: LED billboards and totems
- Mobile information points
- Outdoor events, picnics
- Sensor and station power supply
- Schools and educational institutions (e.g., demonstrations)

PRIVATE USES:

- Free garden lighting
- Camping and camping
- Vanlife / campers
- Boats and yachts
- Summer cottages
- Gardens and gazebos
- Home and property monitoring
- Outdoor lighting
- Power supply for router, weather station, and speaker
